

GIVE US STRING, CLIMB IN A SUSTAINABLE WAY!

CAMP
only in the
equipped areas

RESPECT THE VEGETATION
OF ANY SHAPE

admire flowers
but leave them where they are!

RESPECT WILDLIFE:
small and big animals that
live and reproduce
nearby the slopes,
on which we
have fun,
need our
respect
so then
quietness

If you see a nest
inhabited, get
away if possible!

PARK
the car without
trampling
the meadows

AVOID SHOTCUTS
because abandoning paths
generates erosions

DO NOT DISTURB CHAMOIS AND
IBEXES,

moreover during the
winter season:
for them it's the
more delicate
period because
they find
little food
and it's also
the
mating
season

SPREAD THE VOICE OF THESE GOOD PRACTICES, BECAUSE THE PARK IS OF EVERYONE!

DO NOT LEAVE
TRACKS BEHIND YOU,
such as waste and
cigarette butts: it
doesn't matter if they're
biodegradable,
bring them always with
you to the valley, a
clean natural
environment is also
more beautiful

Remember that dogs in the Park are
allowed only on some paths
and also on these always on
the lead: before going to the
climbing place verify
on the web site or at the
information centres where
to leave your dog.

FOR BOULDER LOVERS (AND NOT ONLY!)...

MOSSES AND LICHENS
grow slowly and secure life of other organisms:
removing them from rocks, with hands or iron
brushes, means to cause a
small but big damage!
